

Product Requirements Document

[Branches] — PRD Template

1. Product Overview

- Product name: [Branches]
- Platform: [iOS]
- Product type: [Motivational/time management]

One-line definition

This product allows users to track their long-term goals by splitting them into smaller tasks on which they set deadlines and complete.

2. Problem Statement

Who experiences the problem

- When users have a long-term project, they find it difficult to complete it due to its scale
- When facing a massive project, they lack of motivation
- Too difficult to process and plan a complex project

Why existing solutions fall short

- [Limitation of current alternatives 1]
- [Limitation 2]

3. Product Goals

Primary Goal

To simplify and thus make possible users' large/complex long-term projects

Secondary Goals

- Time management - prevents procrastination
- Constant motivation - reminds the user WHY they do this
- Trackable progress

Explicit Non-Goals

- Help users find a goal (this should be what they do themselves)
- [Non-goal 2]

4. Target Users

Core Persona

- Have big dreams/targets
- Struggles with task management
- They can use it whenever they want to begin a large project and track progress

Key User Mindsets

- ["A quote capturing how the user thinks."]
- ["Another representative mindset."]

5. Core Product Principles

1. Motivation
2. Organization
3. Management
4. Achievement

6. Core User Journey (High Level)

[Map the primary flow as a simple linear or looping sequence, e.g.:]

Large branch (main project/goal)→ small branch (general tasks) → smaller branch (specific tasks)→ deadline+notes+why you do this

7. Feature Requirements by Screen (havent done)

[Duplicate the screen block below for each screen in the product. Label sequentially: Screen A,

Screen B, etc.]

Screen A — [Screen Name]

Purpose

[One sentence describing what this screen exists to accomplish for the user.]

User Intent

- ["What the user is thinking / trying to do here."]
- [Another user intent statement.]

What users can see

- [Visible element 1]
- [Visible element 2]
- [Visible element 3]

PRD Template • Page 2What users can do

- [Action 1 — and where it leads]
- [Action 2]

Success Criteria

- [Measurable or observable signal that this screen works]
- [Another success criterion]

Screen B — [Screen Name]

Purpose

[One sentence describing what this screen exists to accomplish for the user.]

User Intent

- ["What the user is thinking / trying to do here."]
- [Another user intent statement.]

What users can see

- [Visible element 1]
- [Visible element 2]
- [Visible element 3]

What users can do

- [Action 1 — and where it leads]
- [Action 2]

Success Criteria

- [Measurable or observable signal that this screen works]
- [Another success criterion]

Screen C — [Screen Name]

Purpose

[One sentence describing what this screen exists to accomplish for the user.]

User Intent

- ["What the user is thinking / trying to do here."]
- [Another user intent statement.]

What users can see

- [Visible element 1]
- [Visible element 2]

- [Visible element 3]

What users can do

- [Action 1 — and where it leads]
- [Action 2]

Success Criteria

- [Measurable or observable signal that this screen works]
- [Another success criterion]

8. Key Metrics

Core Metrics

- [Quantitative metric 1]
- [Quantitative metric 2]
- [Quantitative metric 3]

Qualitative Signals

- [Observable user behavior or sentiment 1]
- [Qualitative signal 2]

9. Core Experience

[A prose walkthrough of the end-to-end experience, section by section. Use this to describe each major flow in plain language.]

[Flow / Section Name]

[Describe what the user encounters and does in this part of the experience.]

The Core Loop in One Sentence

[A single sentence summarizing the repeating core loop of the product.]
